

UNODC Chairs

Riad Khoury

Charbel Bou Akl

Ryan Al Saghir

Riad Khoury

Hello delegates. My name is Riad Khoury, I'm 15 years old and I've been in SHSMUN for the past 4 years. I have attended many national conferences as well as one international ones. My hobbies are playing football, basketball, and hanging out with friends. This year, I will be chairing the UNODC (United Nations Office Of Drugs and Crimes) with my fellow co-chairs, Charbel Bou Akl and Ryan Al Saghir.

I am looking forward to getting to know you as delegates and I hope to see you all there.

Charbel Bou Akl

My name's and I am co-chairing the UNODC committee this year. I've attended numerous conferences in my Model UN journey and was lucky enough to win an award of diplomacy at the international conference held in Athens, Greece. I enjoy listening to oldies and indie rock. The thing I love to do the most is travel and be able to experience different corners of our planet involving different traditions, food, cultures, and architecture. Over and above that, I expect

delegates to come well prepared to this conference and I hope that each and every delegate tries his/her best to avoid worrying or feeling discouraged whilst in the conference. We are here mainly for the experience and few are the students that are able to partake in such an experience. Diplomacy, speaking skills, and research are of utmost importance in this conference.

Ryan Al Saghir

Hello! My name is Ryan Al Saghir and I am a co-chair of the UNODC committee. I am in 10th Grade and turning 16. I spend most of my time either enjoying life with friends or learning about various matters such as history and geography. I enjoy sports too, especially volleyball. My passion for MUN arose through experience gained from various conferences and world conflicts which pushed me forward to help find solutions for various world problems. I hope that our delegates formulate real world solutions that they may someday adapt in their lives. Furthermore, I hope the delegates will form healthy and friendly relationships between each other. My question for all the delegates of SHSMUN '20 is, do you see yourselves as problem-solvers or conflict-brewers of this world, and for how long?
